Drawings

The petition for color drawings, filed December 19, 2003, is denied because, although Applicants have provided (as set forth in 37 CFR 1.84 (a)(2)): the fee set forth in § 1.17(h), a black and white photocopy that accurately depicts the subject matter shown in the color drawing, and an amendment to the specification to insert the appropriate language, Applicants have only provided one set of color photographs. Although Applicants state in their petition that three drawings are provided, only one set of the color photographs is found with the file. Thus, in order to fulfill the requirements for this petition, Applicants are required to furnish an additional two sets of color photographs.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

1. The claims, as instantly amended, recite a mouse whose genome comprises a transgene encoding NOX 1 See claim 1. Although there is no literal support in the specification for this language, the specification teaches a transgenic mouse with a particular transgene encoding NOX 1, which provides figurative support for a mouse whose genome comprises this transgene.

2. The claims, as instantly amended, recite that the transgene comprises nucleic acid encoding SEQ ID NO: 2. The prior Office action provides the enabled scope for the claimed mouse comprising a transgene encoded by SEQ ID

Art Unit: 1632

NO: 1. See p. 8. The instant amendments overcome this rejection because SEQ ID

NO: 2 is the polypeptide encoded by SEQ ID NO: 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
